Non - Yellowing Scots Pine

During the year we think we have made progress toward locating several strains of SCOTS PINE which do not yellow but retain their blue-green color year around. Some details have still to be cleared up. We hope to have the answer this Winter. Other details we can clarify only by distributing the seed over wide geographical areas and subjecting it to different soil conditions.

Write us for further information

Winter Hardy Douglas Fir (PSEUDOTSUGA taxifolia caesia)

This year we anticipate enough seed to go around. Still each year we underestimate the increase in the demand for it. We therefore urge very early orders.

Per $\frac{1}{4}$ lb. \$5.00 Per lb. \$12.50

New Seed Collectors

Many young agricultural students have helped themselves through college by collecting seed for us. Students or professional collectors who have access to pure stands of seed are always welcomed. Write us what you can collect. Either items listed or new additions to this list. We will be glad to go into details by correspondence. All seed received in good condition is paid for within ten days.

TERMS

This list cancels all previous offers and is subject to change without notice.

DISCLAIMER: Herbst Brothers Seedsmen, Inc., warrants to the extent of the purchase price that seeds or bulbs are as described on the container, within recognized tolerances. Seller gives no other or further warranty, express or implied.

PRICES are in U. S. A. dollars, f.o.b. New York, for net weights. Packing is charged at cost and is not returnable. All shipments travel at customers' risk after delivery to carriers. We cannot accept orders for less than the smallest quantity quoted. Prices are calculated for professional growers and minimum orders of \$5.00.

PAYMENT net cash upon receipt of invoice. New customers ordering \$10.00 or more may secure deliveries on open account after establishing credit facilities. Others please remit for value of their purchases plus 10% for packing, insurance and parcel post charges.

COMPLAINTS on outward appearance and on the weight of the seed must be lodged within a week; those on the germination within a month; those on the truthfulness of the strain within 6 months; all to count from the day of arrival at the destination.

PRO RATA DELIVERIES will be made in case of crop failures or shortages.

FOREIGN ORDERS will receive careful attention. We make a moderate charge (Minimum \$2.50) for the preparation of export shipments, plus actual cash disbursements for forms, consular fees and delivery to carrier.

FIGURES IN BRACKETS FOLLOWING DESCRIPTIONS indicate the average number of seeds per ounce (or pound where specified). The number of seedlings a pound of seed will produce will vary with the germinative ability of each species and the crop year.

CLEAN SEED or seed free of pulp of the best possible purity and germination is offered throughout our catalog. Exceptions are designated as follows:

(DB) Dried Berries (DH) Hips (P) Pods

NOMENCLATURE for Tree and Shrub Seeds is "Standardized Plant Names" second edition of the American Joint Committee on Horticultural Nomenclature. Copies available at \$10.50 postpaid in U. S. A. and Canada.

ORIGIN of all seeds offered is available on request. Our aim is to carry seed from the best known sources. No attempt is therefore made to include proveniens in this list.

ELITE PSEUDOTSUGA TAXIFOLIA
VIRIDIS

WASHINGTON—OREGON

From many of the choicest Washington and Oregon Douglas Fir Stands, we offer 1955 crop seed from hand picked cones. Cone collection will be supervised by experienced foresters. The seed will be processed and re-cleaned minimum 95% sound, 97% pure. Our certificate of origin and quality will accompany each lot.

Elevations 1/4000 feet...Prices on request

Pseudotsuga taxifolia viridis collected in the accepted manner and processed 97/95% at lower prices.

WINTER HARDY DOUGLAS FIR

European Foresters report frost damage to Green Douglas Fir during cold winters. For affected areas we recommend our British Columbia *Pseudotsuga taxifolia caesia*, which was not damaged. It is definitely hardier. Elevation to 1000 feet..... 12.50 per lb.

COLORADO DOUGLAS FIR

Colorado has a good crop of *Pseudotsuga taxifolia glauca*. Seeds from elevations over 5000 feet. 12.00 per lb.

Flower Seeds

During the past year our perennial flower seed business has again increased in many ways. We have

- (1) More satisfied customers
- (2) Greater number of varieties
- (3) Larger volume

Quality alone is responsible for this as we have no salesmen and our advertising budget is very modest. We pass the very considerable saving on to you.

New customers would not be requesting our catalog and ordering but for the recommendations of old customers.

The number of prime producers or growers of fine flower seed is very limited in our country as well as overseas. These growers furnish us their best seed. You have only to try our seed to satisfy yourself.

F₁ Petunias surpass open pollinated strains in uniformity of plant habit, flower size, style, and color. They are also much more floriferous. They can be brought to flower quickly for early pot sales. Their usefulness as specimen plants is outstanding. Their uniform habit makes them delightful border subjects. Their solid, profuse flowering habit establishes them as wonderful for bedding.

Hybrid Tomato Seed

TRUE HAND POLLINATED F-1

For the commercial grower we have three fine F-1 hybrids. Compared with open pollinated strains they mature earlier, produce large, uniform fruit and have a long harvest season. Your plant customers know the value of F-1 Hybrids and will be eager buyers of the following:

No. 68E (Rutgers x Valiant): The best for eastern use. Somewhat earlier than Rutgers, steady, continuous yield, fine smooth fruit. Remarkable hybrid vigor.

No. 23V (Valiant x Earliana): Preferred for its earliness and continuous yield. Fruit comparable to Valiant, smooth and free of blossom end cracks.

Pink F-1 Hybrid No. 4: Widely used where Pink Tomatoes are popular. Described by Mr. Sakata as "Large pink Ponderosa type, but far better fruit and heavier cropper. Each fruit weighs about $\frac{3}{4}$ lbs."

As many home gardeners prefer the large Beefsteak fruit, it will pay to have plants available.

Prices $\frac{1}{4}$ oz. \$2.50, oz. \$7.50, $\frac{1}{4}$ lb. \$22.50
